## SUMMARY

Detail-oriented Interior Designer with one and half year of professional experience and a Diploma in Interior Skilled in concept development, space planning, and 3D visualization. Experienced in producing technical drawings and coordinating with multidisciplinary teams to deliver functional, aesthetically refined, and cost-effective design solutions aligned with client requirements and industry standards.

## EXPERIENCE

|                                                        |                |
|--------------------------------------------------------|----------------|
| Junior Interior Designer, AIHawaj Architect & Builders | Calicut, India |
| Interior Designer THEYYAMPATTIL HOMESOUL INTERIOR      | Calicut,India  |

Met with clients to understand functional requirements, aesthetic preferences, budgets, and timelines. Developed and presented design concepts, mood boards, layout plans, furniture schemes, materials, finishes, and lighting plans. Produced detailed 2D and 3D drawings, renderings, and visualizations using AutoCAD, SketchUp, Revit, and related software. Prepared specifications for finishes, furniture, fixtures, and equipment (FF&E). Coordinated with architects, MEP engineers, contractors, and suppliers to ensure design accuracy and quality standards. Monitored site progress to ensure work aligned with approved designs and project timelines. Managed project schedules and procurement to support timely and cost-effective project delivery. Maintained up-to-date knowledge of design trends, materials, building codes, and regulations.
